Plague in Doddballapur town 348½L

General and Revenue Secretariat | File No | of 194 | [App F III-2

Serial No

From the Director of Public Health
Letter No. D.E. 1554 dt 10 12 41
Forwards a report received taken to suppress the outbreak of plague in Doddballapur town and requests instructions to be issued to the Doddballapur Municipality to fumigate the houses Cyanogas.
The Municipal Council, it is stated have resolved that Cyanogassing is not necessary & the D.P.H requests that instructions may be issued to the Municipality to Cyanogas the houses
(1) Cyanogassing is accepted as a measure par excellence to combat plague and the P.H dept charges the cost of Cyanogassing to the local body concerned. It is desirable to avoid the cost, the Municipality demurs.
(2) The reference will be transferred to the Sec. Branch to issue the necessary instructions immediately to the Municipality through the Dy Commr Bangalore (3) A will be done after permit by new drug

To

The President,
Town Municipal Council,
Dodballapur.

Sir,

With reference to your letter No.C.272/41-42 dated 4-12-1941, I have the honor to inform that the opinion of the Assistant Surgeon at Dodballapur is not the factor that has to guide the action to be taken in epidemic matters. The fact that inoculation has been done among the people does not prevent the existence of infection in Dodballapur. As cyanogasing is to be carried out to avoid spread of infection both in the town and from the town to other places, I request that the cyanogasing work is undertaken.

I have the honour to be,
Sir,
Your most obedient servant,
Sd/- P. Parthasarathy,
Director of Public Health.

Sir,

Plague in Dodballapur Town

I have the honour to state that plague was reported from Dodballapur on 19 11 1941 and four attacks and two deaths have been reported up to 27-11-1941 It was also reported that inoculation work was undertaken

Major Evans, Assistant to Director of Medical and Sanitary Services saw me about tend days back in connection with the plague situation round about Bangalore He expressed in course of his talk that as the Military are moving about between Bangalore and surrounding areas it is greatly desirable that all the villages along the roads are kept free from pague and that whenever there should be infection all necessary action should be taken

Soon after the report was recieved, the Sanitary Inspector was sent to start cyanogasing work The President wrote to this office asking to withdraw the Sanitary Inspector mentioning that the Assistant Surgeon, Dodballapur had opined that the infection was of a mild type and that cyanogasing is not necessary The Amildar was written to stating that in matters of epidemics, the Assistant Surgeon's opinion should not be taken as final and that cyanogasing work may be undertaken not only because inoculation does not prevent spread of infection in the place and also spread of the infection from Dodballapur The Deputy Commissioner was also written to, to instruct the Amildar to start the work I am enclosing herewith a copy of the letter written to the Deputy Commissioner in this respect The District Medical & Sanitary Officer, Bangalore was also written to to look into the matter, why the Assistant Surgeon gave his opinion

I enclose herewith the letter received from the Amildar President that he placed the subject before the Municipal Council and that they resolved that cyanogasing is not necessary As the Deputy Commissioner is out of station and camping at Hoskote, I could not talk to him on the phone I request that you may be so good as to issue instructions to the Municipality to cyanogas the houses in the town

I have the honour to be

Sir,

Your most obedient servant,

DIRECTOR OF PUBLIC HEALTH

Letter No 57 (camp) dated 7th December 1941 (Mysore) from the Director of Public Health in Mysore, Bangalore to the President, Town Municipal Council, Dodballapur

---

With reference to your letter No C 272/41-42 dated 4-12-1941, I have the honour to inform that the opinion of the Assistant Surgeon at Dodballapur is not the factor that has to guide the action to be taken in epidemic matters The fact that inoculation has been done among the people does not prevent the existence of infection in Dodballapur As cyanogasing is to be carried out to avoid spread of infection both in the town and from the town to other places, I request that the cyanogasing work is undertaken

---

No Camp 57-2 dated, 7th December 1941, (Mysore)

Copy forwarded with compliments to the Deputy Commissioner, Bangalore with a request to issue instructions to the Amildar to carry on cyanogasing As the military people are moving about it is necessary to keep the town free from infection

Director of Public Health

Letter No O C 272/41-42 dated 4th December 1941
from the President, Town Municipal Council, Dodballapur,
to the Director of Public Health in Mysore, Bangalore.

With reference to your letter No B E 1447 dated 30th November 1941 received here on the 1st December 1941 intimating that a Sanitary Inspector has been deputed to carry on the cyanogasing operations in the town due to plague, I have the honour to state that only 4 attacks and 2 deaths have occurred in the town as can be seen from the letter No 283 dated 3-12-1941 received from the Assistant Surgeon copy of which is enclosed for ready reference As there have been no attacks in the town for the past one week and as a large number of people have been protected against plague and as large number of houses have been and is yet being disinfected there seems to be no necessity of undertaking the scheme which is rather costly and which may not be sanctioned by the council. Under the foregoing circumstances I request you to kindly await the opinion of the Council which will be intimated on the 7th of this month on which date a special meeting has been called for Meanwhile the Sanitary Inspector who has been deputed may kindly be recalled.
